Equine counting

Statistics and counting animals

Last numbering programs

The last numbering programs of the NCAH are at 2015 ,
for groups to evaluate immunity of animals injected by vaccines.
FMD (national program to control of the diseases) :
here used regional code + ID format + GPS t.

Last counting programs

There was tow system of counting animals at place

1- counting at vaccination programs (informal counting)

Veterinarian teams in active vaccination programs of FMD at 2013-2015

The work it was in 7 places in Libya concluded to :

Area	Sheep and goat	cows
Zawia	800.000	1500
Tripoli -misurata	1200.000	35.000
Weast mount	750.000	5000
East mount	1.600.000	30.000
banghazi	1.100.000	26.000
Sabha	300.000	2000
Total	5.750.000	99500

2-formal counting which held years ago

Held by animal health departments and animal production departments of the provinces

التعداد والإحصاء في ليبيا

- ي
كذلك الفترة التي يتم بها الحصر والتعداد وبصفة عامة يتراوح احصائيات وتعداد الحيوانات في ليبيا
...: ك

- الابل حوالي 150 الف خف _ 1
- الضأن وماعز حوالي 6 مليون راس _ 2
- ابقار يتراوح بين 200 - 250 الف راس _ 3
- الخيل والحمير حوالي 10 -

System of the counting

At this time the counting of animals concentration on ruminants (cattle , sheep, goats) according on recorded documents of national center of animal health

The teams worked in 7 groups to covering all Libyan regions

The counting programs was documenting as associated program with vaccination campaigns it was related to animal health Purposes .

Programs under establishing

Accurate the pervious counting

suggesting plans which main one of it was colored ear tag and codes of each area To easing of tracing animals

2012/11/26

Difficulties

Smuggling animals at borders.

Lost controlling of the movements of animals between provinces

Rural season of the animal effect on accuracy of the counting

Stability of the administration to sitting such thus programs

difficulty of the coordination with international programs In this aspect

Animal movements

Legal movements , illegal movements

(no identification pro. at neighboring countries)

National programs at place

Project of animal improvement and genetic resource of equines

لجنة إعداد كتاب أنساب الخيول ، قسم الانساب بإدارة الإنتاج الحيواني

National strategy plan for identification and traceability conference ,
which held at Sirte city 2 years (under progress)

National partners

Animal production (specialized) departments

NGOs for animal husbandry

Supreme Committee for the registration of horses

Research national centers

Project of animal improvement and genetic resource

THANK YOU
