Update on the Pan African PPR Eradication Programme (2022-2026): Overview, Launch, Nairobi Declaration and STC Recommitment

Dr. Hiver Boussini, Senior Animal Health Officer, AU-IBAR
11th Meeting of the Regional Steering Committee (RSC11) of the GF-TADs
for Africa
21st -23rd June 2022

RSC Background

- 11
- ▶ PPR coordination meeting under GF-TADs Africa umbrella in December 2021, Naivasha, Kenya to initiate the development of the 2nd generation of PPR eradication program 2022-2026. FAO, OIE, AU-PANVAC and AU-IBAR
 - ▶ Renewed Commitment of AU MSs during the 4th STC Meeting 13-15 December 2021 on PPR Eradication
 - ▶ PPR Concept note was drawn from this meeting and submitted to EU-Brussels in December 2021
 - ▶ High level mission to EUC in Brussels 14-19 February 2022 to seek for the financial support of EU for the implementation of PPR Eradication program
 - ▶ Coordination team to lead the development/finalization of the program with the support FAO/OIE PPR Global Secretariat from 15-16 March 2022 in Nairobi, Kenya;
 - ▶ Ministerial meeting to officially launch the PPR Eradication program from 17-18 March 2022, Nairobi Kenya together with the celebration of the 10th anniversary of Rinderpest Eradication and the 70th year anniversary of AU-IBAR

Workshop to Finalize/consolidate and validate the Pan African PPR Control and eradication (2022-2026) in Africa

Participants: CVOs, RECs, Research institutions, PPR experts, FAO, OIE, AU-IBAR, AU-PANVAC

1. **The overall Objective** the ministerial meeting was to official launch the 2nd generation of the Pan African PPR Eradication program 2022-2026/27.

2. **The specific objectives of the workshop were:**

To seek for political support from MSs and RECs on PPR eradication Program;

- ▶ To officially launch the Pan African PPR Eradication Program 2022-2026/27 in Africa,
- ▶ To seek support from donors and partners for the Joint mobilization of resources for the effective implementation of the pan-African PPR programme.

RSC Ministerial Meeting to launch the PPR Program

THE NAIROBI DECLARATION ON THE ERADICATION OF PESTE DES PETITS RUMINANTS ERADICATION BY 2030

PANAFRICANPPR ERADICATION PROGRAM 2022-2026

PROJECT GOAL

To contribute to food security, poverty alleviation and resilience of livestock-dependent communities in Africa and the economic growth of the affected countries.

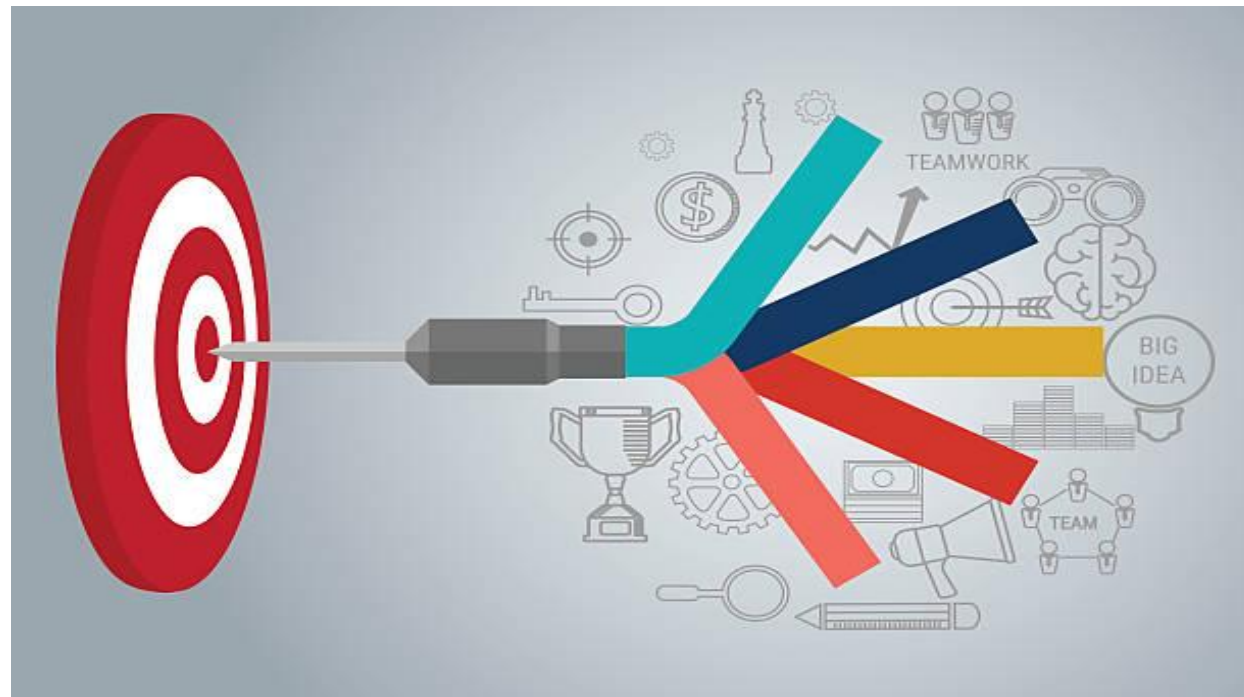

RSC

11

PROJECT OVERALL OBJECTIVE

To eradicate PPR in Africa by 2030

PROJECT SPECIFIC OBJECTIVES

- To eradicate PPR in endemic countries and maintain the absence of PPR in non-infected countries
- To reinforce the Critical Competencies of Veterinary Services to enhance the control and eradication of PPR and other priority sheep and goats diseases

PROJECT SPECIFIC OBJECTIVES...

- To promote investments in livestock - based business models along the key value chains to enhance sustainable production, productivity and access to markets
- To strengthen coordination and partnerships for the eradication of PPR and control of other priority small ruminant diseases

RESULTS AREAS

1. Enabling environment , animal health systems for PPR eradication and the control of other priority small ruminant diseases enhanced
2. Measures towards the eradication of PPR and the control of other priority small ruminant diseases improved
3. Strategic partnerships and business models for enhanced performance of small ruminants value chains
4. Coordination, management and strategic partnerships at all levels strengthened

MAIN ACTIVITIES BY RESULT AREAS

RESULT 1: Enabling environment , animal health systems for PPR eradication and the control of other priority small ruminant diseases enhanced

- 1. Review and validate the PPR eradication and investment plans by stakeholders.**
- 2. Support stakeholder analysis, awareness, organisation and engagement.**
- 3. Improve legal frameworks for the eradication of PPR and control of other priority small ruminant diseases.**
- 4. Support the Strengthening of Veterinary Services in MSs based on the outcome of OIE PVS evaluation and PPR PMAT.**

RESULT 2: Measures towards the eradication of PPR and the control of other priority small ruminant diseases improved

- 1. Conduct epidemiological and socio-economic assessments.**
- 2. Support strengthening of national and regional surveillance systems**
- 3. Support strengthening of capacities of diagnostic laboratories**
- 4. Improve the understanding the role of wildlife in the epidemiology of PPR.**

RESULT 2: Measures towards the eradication of PPR and the control of other priority small ruminant diseases improved

- 5. Support access to quality vaccines and vaccine delivery through public private partnerships**
- 6. Support the strengthening of Regional and National Animal Health Networks.**
- 7. Support MSs to demonstrate freedom from PPR following OIE standards**
- 8. Support the control of other priority small ruminant diseases (in support of PPR eradication).**

RESULT 3: Strategic partnerships and business models for enhanced performance of small ruminants value chains

- 1. Support RECs and MS to conduct inventory and analysis of small ruminant value chains.**
- 2. Promote intra and inter country harmonization through MoUs / Protocols for animal health and productivity**
- 3. Support intra and inter country harmonization through MoUs / Protocols for animal identification and traceability for market access and sanitary safety of trade.**

RESULT 3: Strategic partnerships and business models for enhanced performance of small ruminants value chains (cnt...

- 4. Support resilience building and creation of alternative sources of employment and income for farmers, particularly women, youth and other vulnerable groups.**
- 5. Support the enhancement of capacities for sustainable natural resources management and pastoralism**
- 6. Support building capacities for sustainable small ruminants' enterprise**

RESULT 4: Coordination, management and strategic partnerships at all levels strengthened

- ▶ **Review and identify an appropriate project management system based on lessons learnt from past projects / programs. This will lead to:**

1. Enhance national level coordination and management.
2. Promote operational coordination through RECs.
3. Improve policy and strategic coordination at continental level.
4. Strengthen coordination with Global technical partners (FAO,OIE, IAEA etc)
5. Promote a vibrant and relevant Public Private Partnerships (PPPs)

Indicative budget item	Amount €
Result 1: Enabling environment , animal health systems for PPR eradication and the control of other priority small ruminant diseases enhanced	26,300,000 (5%)
Result 2: Measures towards the eradication of PPR and the control of other priority small ruminant diseases improved	341,900,000 (65%)
Result 3: Strategic partnerships and business models for enhanced performance of small ruminants value chains	52 600 (10%)
Result 4 & 5: Coordination, management and strategic partnerships at all levels strengthened	42,080,000 (8%)
Sub-total	462,880,000 (88%)
Contingencies (5%)	23,300,000 (5%)
Administrative/ costs (7%)	36,820,000 (7%)
TOTAL	526,000,000 (100%)

RSC BUDGET MOBILISATION PLAN

11

- ▶ Member States : 30% (157,8 M€)
- ▶ European Union: 30% (157,8 M€)
- ▶ Other Development Partners (USaid, Australian aid, Gates Foundation, JICA, AfDB, IsDB, FDA, DFID...): 40% (210,4 M€)

Required Total Budget: 526 M€

PARTNER INSTITUTIONS

United Nations

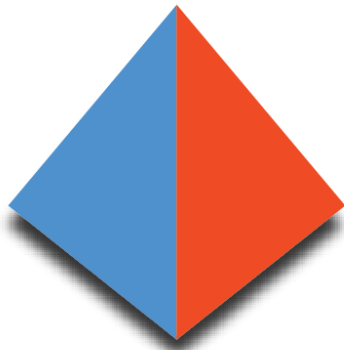

RSC Next Steps

- 11
- ▶ Collation and analysis of data on PPR eradication activities such as cost of vaccination, cost surveillance, cost of testing and sero-monitoring, update of SMR populations.....
 - ▶ Consolidation of the program under GF-TADs umbrella (AU-IBAR, AU-PANVAC, FAO/OIE PPR Global Secretariat, RECs ...)
 - ▶ Official letter for financial support to EU
 - ▶ Special event/bilateral negotiation between AU and EU on PPR Program funding
 - ▶ Advocacy for national budget allocation to support eradication activities by MSs
 - ▶ Resource mobilization from other sources of funding AfDB, BMGF, GalVMed, IsDB among others
