INTERAFRICAN BUREAU  
FOR ANIMAL RESOURCES

# Rationale for International Strategy Case of African Union;

2<sup>nd</sup> SGE on CBPP Workshop for GF-TADs Africa  
Lusaka 23-25 July 2024

Dr. Huyam Salih  
Director of AU-IBAR

CBPP is currently confined to Sub-Saharan Africa, its impacts on food security, economic stability, and animal welfare justify the development of a comprehensive strategy. Such a strategy might contribute to global efforts in disease prevention, economic development, and public health.

- 1. Global Food Security and Livelihoods;** Economic Importance & food supply chain
- 2. Regional Economic Stability;** Economic Integration & Cost of Outbreak Management
- 3. Animal Welfare;** controlling of CBPP contribute to the improving animal welfare standards
- 4. Prevention of Spread to Other Regions;** reduce the risk of Spread & Strengthening standardized biosecurity measures
- 5. Research and Development Opportunities;** improving vaccine and treatment development & building capacities
- 6. Global Responsibility and Solidarity;** addressing CBPP aligns with global health and development agendas, such as the UN Sustainable Development Goals (SDGs), particularly those related to poverty alleviation, food security, and economic growth.

Also, a global strategy will demonstrate global solidarity in tackling diseases that primarily affect developing regions, fosters cooperation and shared responsibility in global health issues.

## International/ Global Strategy for CBPP prevention and Control- Key components

- ✓ **Standard protocol:** Standardized options for best practices and guidelines;
- ✓ **Knowledge Sharing and Collaboration;** Knowledge Sharing and Collaboration to foster innovation and improvement.
- ✓ **Resource Optimization,** in a coordinated approach with other TADs.
- ✓ **Addressing Global Challenges;** , such as climate change, AMR (public health), and social inequality.
- ✓ **Research & innovation;** Promote Research & Innovative Solutions.
- ✓ **Capacity Building,** enhance cooperation with international expertise.
- ✓ **Policy Advocacy;** global strategy can strengthen advocacy efforts, influencing international policy and funding priorities to support the eradication of CBPP.
- ✓ **Monitoring & evaluation;** development of global monitoring and evaluation frameworks, allowing for better tracking of progress, impact assessment, and continuous improvement.

**BOTTOM UP APPROACH  
IN CONSULTATION,  
SITUATIONAL & RISKS  
ANALYSES, **considering  
Africa strategy/ case**, and  
other regions contingency  
approaches.**

**CONSIDER all  
STAKEHOLDERS  
ACTIONS AT  
DIFFERENT LEVELS  
**international  
organizations,  
international  
research institute &  
donors** LEVELS**

**The strategy should contain  
COST EFFECTIVE ACTION  
PLAN, GUIDING TO  
SUSTAINABLE  
IMPLEMENTATION, WELL  
MONITORED USING  
ROBUST M&E SYSTEM**

Thank you
