

**Malabo Declaration on
Accelerated AGRICULTURAL
GROWTH and
Transformation for
Shared Prosperity and
Improved Livelihoods**

17^e SOMMET DE L'UNION AFRICAINE A MALABO

Introduction

At the African Union Summit in Malabo, Equatorial Guinea in June 2014, Heads of State and Government adopted a remarkable set of concrete agriculture goals to be attained by 2025.

The Malabo Declaration on Accelerated Agricultural Growth and Transformation for Shared Prosperity and Improved Livelihoods is a set of new goals showing a more targeted approach to achieve the agricultural vision for the continent which is shared prosperity and improved livelihoods.

The Malabo Summit reconfirmed that agriculture should remain high on the development agenda of the continent, and is a critical policy initiative for African economic growth and poverty reduction.

Malabo Declaration on Accelerated Agricultural Growth and Transformation for Shared Prosperity and Improved Livelihoods

We, the Heads of State and Government of the African Union, having met at our Twenty Third Ordinary Session of the AU Assembly in Malabo, Equatorial Guinea, from 26-27 June 2014, on the Theme of the African Year of Agriculture and Food Security: *“Transforming Africa’s Agriculture for Shared Prosperity and Improved Livelihoods through Harnessing Opportunities for Inclusive Growth and Sustainable Development, also marking the tenth Anniversary of the Adoption of the Comprehensive Africa Agriculture Development Programme (CAADP)”*.

Recalling our previous Decisions and Declarations on agriculture and food and nutrition security, in particular the 2003 Maputo Declaration on Agriculture and Food Security in Africa [Assembly/AU/Decl.7 (II)]; the 2004 Sirte Declaration on the Challenges Of Implementing Integrated and Sustainable Development in Agriculture and Water in Africa [Ex/Assembly/AU/Decl. 1 (II)]; the 2009 Sirte Declaration on Investing in Agriculture for Economic Growth and Food Security [Assembly/AU/12 (VIII)]; the 2007 Decision on Abuja Special Summit of the AU on Fertilisers [Assembly/AU/ Dec.117 (VII)]; the 2007 Decision on the Abuja Summit on Food Security in Africa [Assembly/AU/Dec.135 (VIII)]; among others.

Acknowledging the persistent efforts made in implementation of the CAADP at national and regional levels, and the positive growth performance that our agricultural sector has been registering in recent years.

Also acknowledging the challenges faced in the implementation of many of those Decisions and Declarations, in particular on progress made in attaining the minimum targets of public investment in agriculture that should demonstrate Africa’s ownership and leadership to the achievement of goals as enshrined in the 2003 Maputo commitments.

Recognising the dire situations that obtain with regard to Africa’s capacity to generate analyse and manage data and information to facilitate evidence based policy development and tracking of progress of implementation, and hence affirming our commitment to enhance such a capacity.

Noting with Concern that the results of the Cost of Hunger Study in Africa (COHA) conducted by the AUC revealed the degree to which child under-nutrition influences health and educational outcomes; the additional barrier it has on children's ability to achieve their full potential; and the impact it has on national productivity.

Concerned that a significant proportion of our population still remains vulnerable to the challenges of economic marginalization, hunger and malnutrition, despite the positive achievements registered recently in agriculture and economic growth; and reiterating our resolve to ending hunger and improving nutrition consistent with our 2013 Decision on Renewed Partnership for a Unified Approach to End Hunger in Africa by 2025 under the CAADP Framework [Assembly/AU/Dec.490-516(XXII)].

MALABO, EQUATORIAL GUINEA • JUNE 26-27, 2014

Reaffirming our resolve towards ensuring, through deliberate and targeted public support, that all segments of our populations, particularly women, the youth, and other disadvantaged sectors of our societies, must participate and directly benefit from the growth and transformation opportunities to improve their lives and livelihoods.

Reflecting that hunger and malnutrition are major causes of poverty and underdevelopment in Africa by causing poor health, low levels of energy, and mental impairment, all leading to low productivity and low educational attainment all of which can in turn lead to even greater hunger and malnutrition, thereby creating a viscous cycle.

Noting the progress made towards alignment, harmonisation and coordination of initiatives and activities of stakeholders and partners with our priorities as defined in the National and Regional Agricultural and Food Security Investment Plans that have been developed through the CAADP process, and stressing on the significance of sustaining this momentum.

Concerned that there is limited progress made in agro-industries and agribusiness development, which hampers value addition and competitiveness of our products in trade both local, regional, and international; and undermines the potential of the sector in transformation and generation of gainful employment opportunities for the growing African youth and women, hence reaffirming our resolve to the achievement of goals as provided in our Decision on 2010 Abuja Declaration on Development of Agribusiness And Agro-Industries In Africa [Assembly/AU/Decl.]

Also concerned over the heavy and growing dependence of our production systems and consumption patterns on external factors (weather, global markets, amongst others,) and their associated vulnerabilities to such external factors as climate variability and change as well as to global economic and political shocks.

Stressing the significance of enhancing conservation and sustainable use of all of our natural resources including land, water, plant, livestock, fisheries and aquaculture, and forestry, through coherent policies as well as governance and institutional arrangements at national and regional levels, to realise their huge potential to generate wealth, social benefits and contribute to the development of our economies.

Recognising the importance of multi-sectoral engagement and co-ownership of this agricultural transformation agenda within our public sectors, including infrastructure, energy, trade, industry, health, science and technology, education, hence the importance of putting in place a coherent inter-sectoral coordination of the efforts and initiatives for optimising resource use, synergy and maximising outcome and impact.

Further recognising the complementary roles and responsibilities that should be enhanced among the relevant stakeholders, including public, private, civil societies, farmers, pastoralists, fishers, in driving this agricultural transformation agenda.

Welcoming the Resolutions of the African Union Joint Conference of Ministers of Agriculture, Rural Development, Fisheries and Aquaculture, held in Addis Ababa, Ethiopia from 01 to 02 May 2014, endorsed by the Executive Council, and in particular their recommendations calling for our Assembly to consider adopting commitments along specific and concrete priorities.
