ARTICLE 2 AREAS OF COOPERATION

When appropriate, the Parties shall exchange views on relevant policy issues within their respective competence and shall consult regularly with each other on matters of common interest, such as developing and implementing sustainable disease prevention and control strategies where vaccination plays a pivotal role and creating an enabling environment that ensures that quality veterinary products are correctly administered by competent workforce and effectively reach small-scale producers in low and middle-income countries. The Parties shall engage in joint resource mobilisation efforts and explore funding mechanisms, including but not limited to public-private partnerships, with a view to achieving their objectives and coordinating their positions and activities. This will include the following illustrative list of topics and activities of mutual interest, subject to availability of resources:

- Addressing strategic challenges in animal vaccines and vaccination through collaborative activities aligned with resolution No. 29 adopted during WOA's 92nd General Session.
- Promoting and supporting the implementation of animal vaccine-related commitments from 79th United Nations General Assembly political declaration on antimicrobial resistance.

- Fostering an enabling policy and regulatory environment in Africa that promotes sustainable availability, accessibility, and adoption of affordable, quality, safe, and efficacious veterinary products.
- Strengthening the capacities of the veterinary workforce in Africa to develop effective animal health management and disease control and to promote sustainable and welfare-based livestock practices.

Other areas of cooperation or activities may be identified and jointly agreed upon by the Parties during the implementation of this MoU.

Within the context defined above, meetings will be encouraged and convened on an ad hoc basis as deemed necessary by the Parties to address priority matters of common interest, discuss technical and operational issues and review progress of work undertaken by the Parties related to further the objectives of this MoU.

The Parties shall endeavour, insofar as possible and in compliance with their constituent instruments and the decisions of their competent bodies, to respond favourably to such requests for cooperation in accordance with procedures and arrangements to be mutually agreed upon.
