

OIE

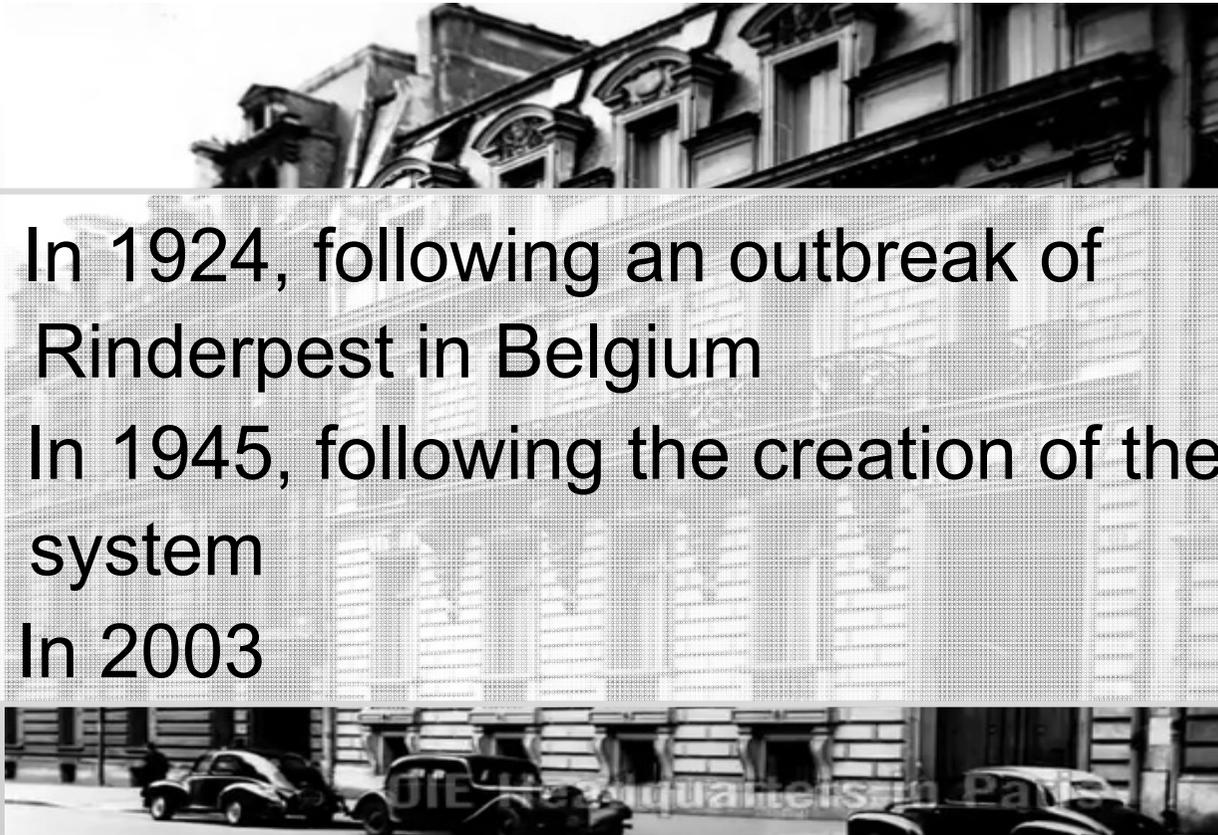

OIE in brief

OIE Regional Seminar for National Focal Points for Aquatic Animals
Dar es Salaam, Tanzania, 2-4 December 2018

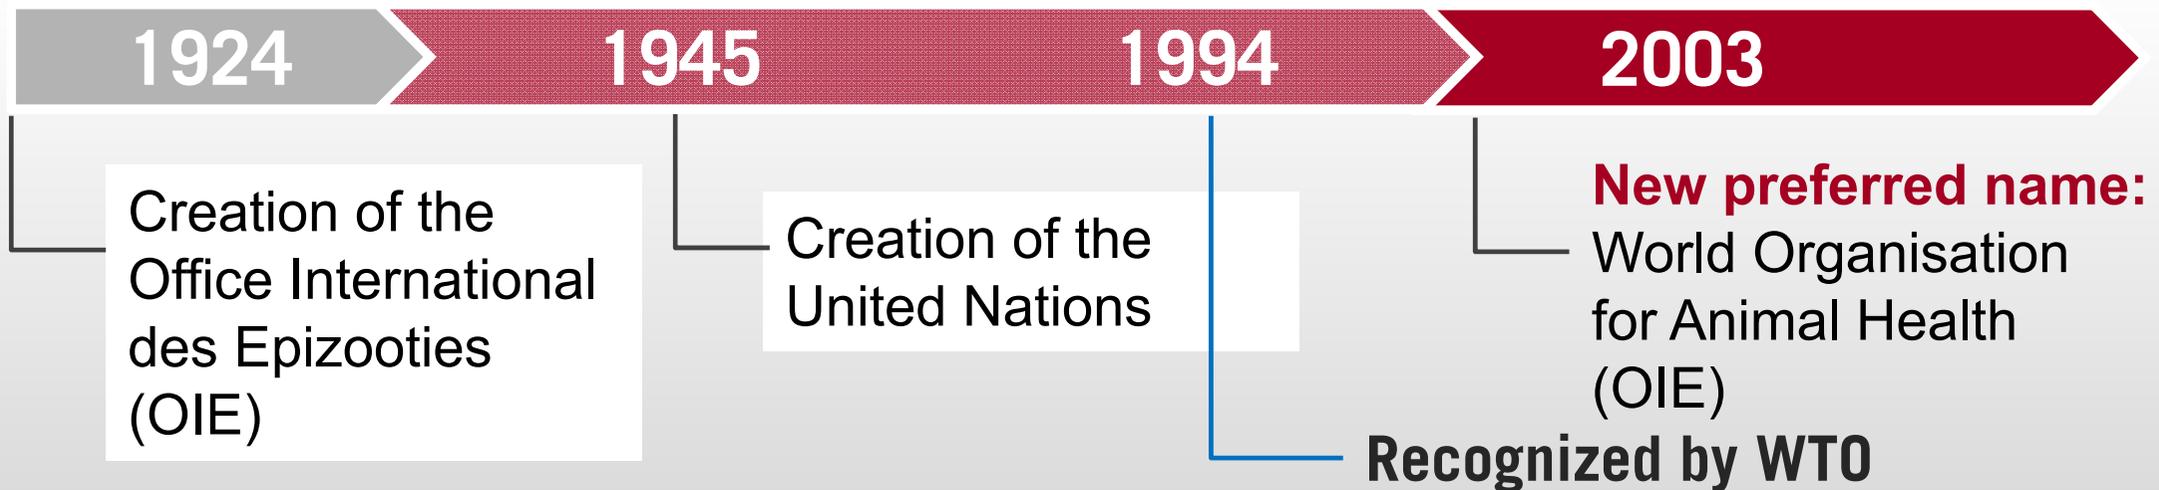

Q1 – When was the OIE created?

- A.** In 1924, following an outbreak of Rinderpest in Belgium
- B.** In 1945, following the creation of the UN system
- C.** In 2003

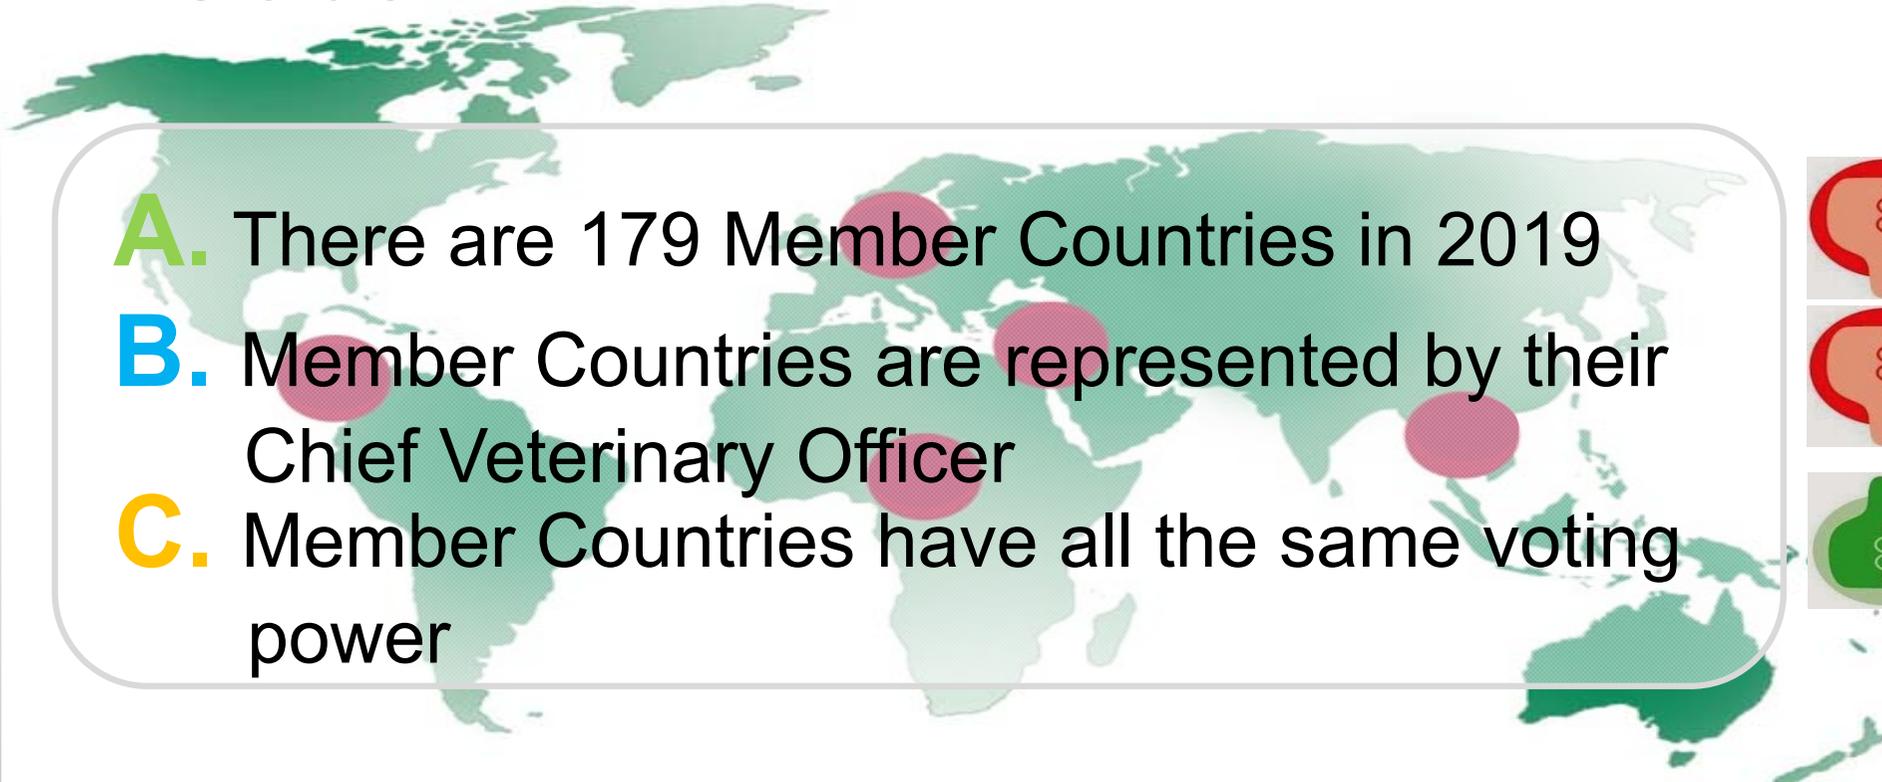

A1 – OIE was created in 1924

An intergovernmental organisation preceding the United Nations

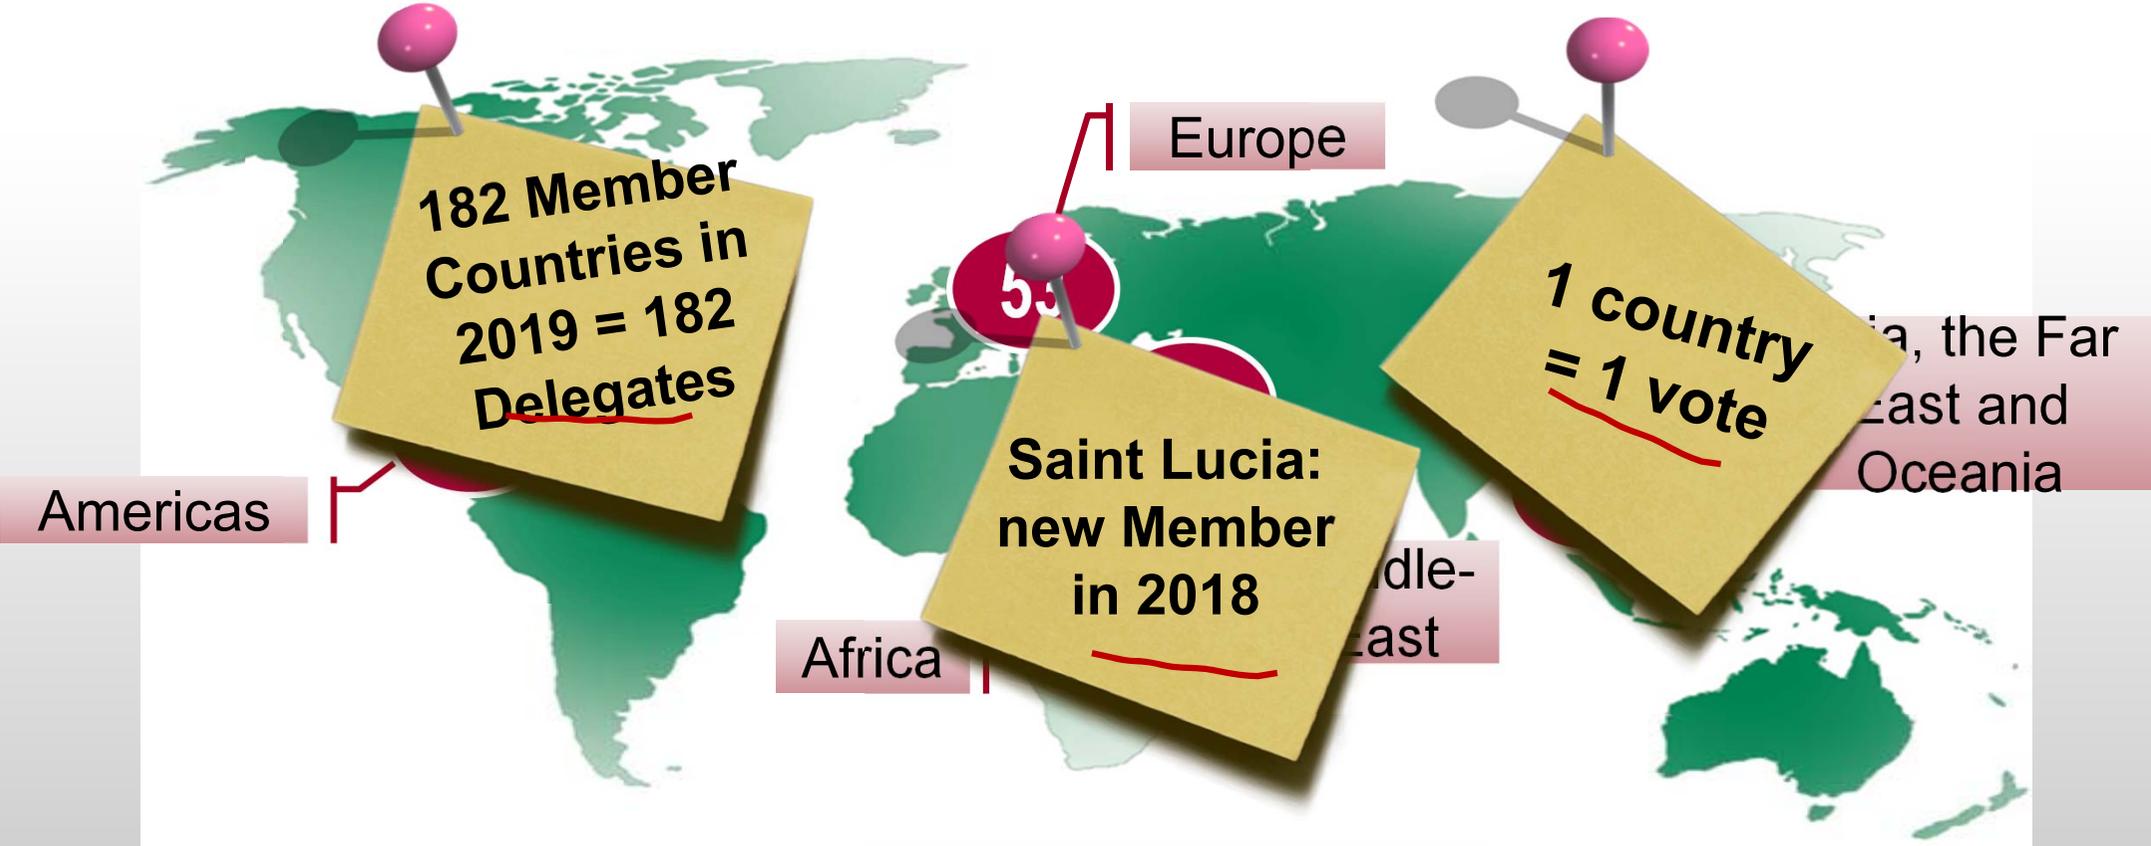

Q2 – OIE Member Countries – which statement is true?

- 
- A world map with a light green background. Several pink circles are placed on the map, indicating the locations of OIE member countries. The circles are located in North America, South America, Europe, Africa, and Asia.
- A.** There are 179 Member Countries in 2019
 - B.** Member Countries are represented by their Chief Veterinary Officer
 - C.** Member Countries have all the same voting power

A2 – 182 OIE Member Countries in 2019

Q3 – What is the OIE's highest authority?

- A. World Assembly of Delegates
- B. Council
- C. Code Commission

World Assembly of Delegates

Highest authority of the OIE

- Composed of all national Delegates of the OIE

- Convenes at least once a year in May

Adopts the OIE

Standards published in

the OIE *Codes* and

Manuals

1 Member = 1 vote

Coordination Procedure: Steps and Timeline

This timeline indicates the process in the lead-up to the General Session in May each year.

Coordination Procedure starts from March

February
Specialist
Commissions

April
MC wishing to have regional support share its comment via the System with clear indication of the intention.

2nd week, May
President summarise MCs' positions and comments, reports to RCG.
Other MCs make comments on the proposal using the System.
(at least two MCs' supports needed)

Prior to GS
President have a **coordination meeting** with RCG and other interested MCs to discuss the results and to prepare for the RC meeting.
MCs discuss and decide regional positions on key issues.

OIE General Session

Xxx On behalf of the 54 members of the OIE Africa Region...

March
SCs' reports be posted on the System

1st week, May
President send an email message to all Delegates of MCs to ask for their comments.

3rd week, May
President share the results with all Delegates of the MCs by email.

Delegates' Secure Access System

Q4 – What are the main responsibilities of the Delegate?

- A.** Notification to the OIE of the national animal disease situation
- B.** Implementing international animal health standards
- C.** National representative with international status

Q5 – How many Representations has the OIE?

A. 182

B. 5

C. 12

Q5 – Regional (RR) and Sub-Regional (RSR) Representations

Under the direct authority of the Director General

Collaborate closely with Regional Commissions

* Sub-Regional FMD Coordination Unit Office in Astana

Q6 – What are the key missions of the OIE?

- A.** Transparency in animal health worldwide
- B.** Scientific excellence
- C.** Ensuring safe international trade of terrestrial and aquatic animals and their products

The four pillars of the OIE

Improving animal health and welfare worldwide

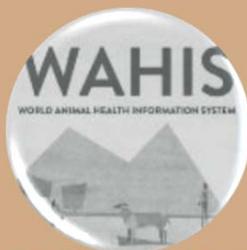

STANDARDS

for improving
animal health and
ensuring safe
international trade

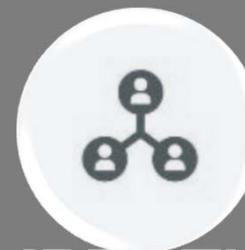

*under the mandate
given by the WTO*

TRANSPARENCY

of the world
animal disease
situation

including zoonoses

EXPERTISE

Collection and
dissemination
of veterinary
scientific
information

*animal disease
prevention and control*

SOLIDARITY

between
countries to
strengthen
capacities
and expertise

*Capacity building tools
and programmes*

Q7 – Standard setting

A. The WTO SPS Agreement recognises the OIE as the relevant standard-setting body for sanitary measures relating to animal health and zoonoses

B. All OIE standards are recognised under the WTO SPS Agreement

C. OIE standards are adopted by the World Assembly of Delegates

Q8 – Which of the following statements are true regarding the World Animal Health Information System (WAHIS)?

- A.** An early warning system to inform, by means of “alert messages”, on relevant epidemiological events
- B.** A monitoring system in order to monitor OIE Listed diseases (presence or absence) over time
- C.** A database automatically assigning official disease status recognition to Member Countries

90 ans de...
TRANSPARENCE

Partager, en temps réel, une information scientifique de qualité sur la situation des maladies animales dans le monde

90 years of...
TRANSPARENCY

To share, in real time, scientific information of quality on the

90 años de...
TRANSPARENCIA

Compartir, en tiempo real, información científica de calidad sobre la situación de las enfermedades animales en el mundo

Transparency is an obligation for OIE MCS

116 OIE Listed diseases + Emerging diseases

- Rumor tracking
- Early warning system
- monitoring system

Information from 195 countries

to provide and verify information on the global animal health situation, emerging threats and potential biological disasters

Q9 – Scientific excellence – OIE Reference Centers are:

A. Composed of OIE Reference Laboratories and Collaborating Centers

B. Designated by the World Assembly of Delegates

C. Well distributed across the 5 regions

Reference Centres

301

Reference Centres

246

Reference Laboratories
(33 aquatic *)

55 (2 aquatic)
Collaborating Centres

(*) 23 listed diseases (no RL for 2 listed diseases) + 10 non-listed diseases

Q10 – Which of the following statements regarding the OIE’s mandate in the area of international solidarity are true?

- A.** The capacity-building activities of the OIE are mainly financed by membership statutory contributions
- B.** The PVS Pathway is a global programme for the sustainable improvement of country’s VS compliance with OIE standards
- C.** The activities of the Veterinary Services are considered as a global public good
