Provisional agenda

Regional training workshop : import risk analysis for *African swine fever*

Day > Time (FAT) Date >	Tuesday 9 November	Monday 15 November	Tuesday 23 November
15:00-15:30	Zoom check-in, problem solving, housekeeping		
15:30-17:20	<p>Session 1.:</p> <p>Opening ceremony</p> <p>Mr. Yurdi Yasmi (FAO RAF)</p> <p>Dr. Gregorio Torres (OIE ScD)</p> <p>Objectives of the workshop</p> <p>Introduction of participants ⁽¹⁾</p> <p>An overview of ASF in Africa</p> <ul style="list-style-type: none"> ASF status and transmission cycles within the region Commodities traded historically and associated challenges Future opportunities for trade <p>(Paolo Tizzani, OIE, world-wide)</p> <p>(Mary-Louise Penrith, UP, Africa-wide)</p> <p>(Moetapele Letshwenyo, OIE, Southern Africa)</p> <p>(Folorunso Fasina, FAO, Western and Central Africa)</p> <p>(Sharon Tsigadi, Private sector perspective, Eastern Africa)</p>	<p>Session 2.:</p> <p>Introduction of participants ⁽²⁾</p> <p>Epidemiology of ASF in Africa with an emphasis on trade related risks</p> <ul style="list-style-type: none"> Transmission cycles Distribution and survival of ASF virus in various tissues/commodities Diagnostic challenges associated with the use of unlicensed vaccines in Asia Diagnostic tests to support trade (OIE Manual of Diagnostic Tests and Vaccines for Terrestrial Animals, etc.) <p>(Edward Okoth, Livio Heath)</p>	<p>Session 3.:</p> <p>Introduction of participants ⁽³⁾</p> <p>An overview of value chains associated with swine production and marketing in Africa</p> <ul style="list-style-type: none"> Demographics of the swine population Production and marketing practices associated with free-ranging pigs through to large scale intensive piggeries Behaviour of the people involved in all stages of swine production and marketing <p>(Fasina Folorunso, Mary-Louise Penrith, Sharon Tsigadi)</p>
	Break	Break	Break
17.30 – 19:00	<p>Discussion</p> <p>Presentation of tasks to prepare for the next session</p> <p>Presentation of tasks to prepare for the next session</p>	<p>Discussion</p> <p>Presentation of tasks to prepare for the next session</p> <p>Presentation of tasks from last week's topics (selection)</p>	<p>Discussion</p> <p>Presentation of tasks to prepare for the next session</p> <p>Presentation of tasks from last week's topics (selection)</p>

Day > Time Date >	Tuesday 30 November	Day > Time Date >	Tuesday 7 December	Tuesday 14 December
15:00-15:30	Zoom check-in, problem solving, housekeeping			
15:30-17:00	<p>Session 4.:</p> <p>Participants feedback (quiz)</p> <p>Business continuity in the context of ASF. Zoning and compartmentalisation.</p> <ul style="list-style-type: none"> Understanding of the OIE concept of zoning, compartmentalisation and commodity risk management An overview of the OIE requirements for a country, zone or compartment to be considered free of ASF Example(s) including successes and challenges of how the requirements for a country, zone or compartment free from ASF have been applied in Africa <p>(Gregorio Torres, Peter Evans, Charmaine Chng)</p> <p>Discussion</p> <p>Presentation of tasks to prepare for the next session</p>	15:30-17:20	<p>Session 5 (continued).:</p> <p>Applying the OIE Import Risk Analysis Framework to facilitate safe trade (continued)</p> <ul style="list-style-type: none"> Identifying and describing risk pathways for the entry, exposure and consequence assessment steps using scenario (event) trees Identifying, selecting and implementing sanitary measures to effectively mitigate risk. <p>(Tim Carpenter, Noel Murray)</p>	<p>Session 6.:</p> <p>Presentation of tasks from last week's topics (selection)</p> <p>Summary and closeout</p> <ul style="list-style-type: none"> Group exercises, presentations and discussion Closing (including GF-TADs for Africa and GF-TADs Global Secretariat)
	Break		Break	
17:10-19:00	<p>Session 5.:</p> <p>Applying the OIE Import Risk Analysis Framework to facilitate safe trade</p> <ul style="list-style-type: none"> An overview of the SPS Agreement and obligations for Member countries An introduction to the OIE's Risk Analysis Framework <p>(Thomas Dulu, Noel Murray)</p> <p>Discussion</p> <p>Presentation of tasks from last week's topics (selection)</p>	17.30-19:00	<p>Discussion</p> <p>Presentation of tasks to prepare for the next session</p>	

Objectives of the training workshop

- 1) build capacity in understanding the epidemiology of ASF
- 2) build capacity in risk assessment for national veterinary services for Member countries,
- 3) review the current knowledge of African swine fever in Africa region English speaking countries,
- 4) conduct qualitative assessment of the risk of spread of African swine fever risk associated to entry, exposure, consequence of ASFV and determine risk pathways to strengthen ASF control.

Expected outcomes - participants will be able to:

- Exchange Information on the latest studies on ASF surveillance, prevention and control,
- Identify the context and situations where risk analysis should be used to support African swine fever control,
- Improve understanding of the OIE qualitative and quantitative import risk analysis guidelines,
- Undertake a qualitative risk assessment,
- Identify and evaluate risk management options
- Communicate the risk analysis findings to disease managers and decision makers
- Foster partnership among key regional animal health players, including where relevant private sector.

Registrations at this hour (9 November)

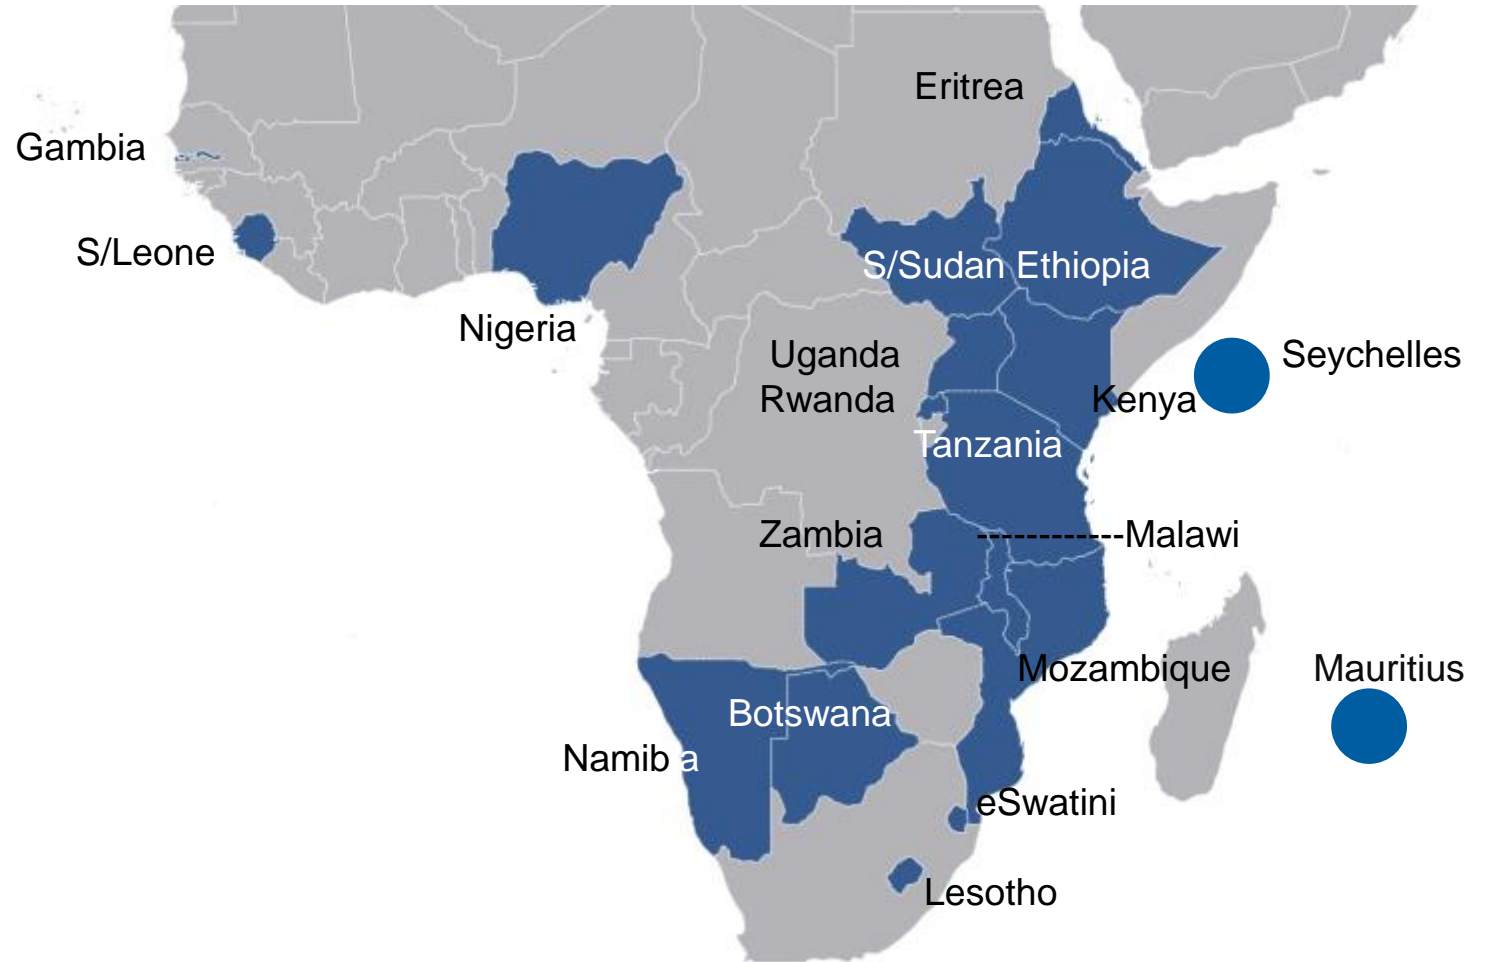

67 overall registrations

39 national participants

6 regional participants
(FAO, IGAD, ECOWAS)

2 observers from OIE RR
Buenos Aires (Americas)
